

EV CHARGING NEWS

FOR IMMEDIATE RELEASE

City of Sugar Land Texas Announces the Addition of OnPoint EV Super-Fast Level 3 Charging Stations at Sugar Land Airport and Level 2 Charging Stations at Imperial Park Recreation Center

March 18, 2025, The City of Sugar Land Texas, working with OnPoint EV Solutions and their Texas JV partner- Argent Associates, will offer Level 3 Fast Charging Electric Vehicle “EV” charging stations at the Sugar Land Airport, and Level 2 Charging EV charging stations at Imperial Park Recreation Center starting in Summer of 2025. Ms. Beth Rosenbaum, Assistant City Manager, Mitch Davies, Director of Aviation, Ken Durbin, Assistant Director of Aviation, Rolly Woolsey, CEO and Russ Mykytyn, CSO of OnPoint EV Solutions and the Sugar Land-OnPoint EV teams broke ground at Sugar Land Airport on March 18, 2025.

Left to Right: Kimberly Terrell, Mitchel Davies, Terri Quinton, Betty Manetta, Ken Durbin, Beth Rosenbaum, Rolly Woolsey, Russ Mykytyn, Andy Zellars, Curt Hayward and Bill Hadjik.

OnPoint EV Solutions DC Super-Fast Level 3 EV Charging Stations, which include a Solar Canopy, High Speed Internet Services, Security Cameras and Digital Kiosks integrated with local Sugar Land Businesses and OnPoint’s Mobile App will be installed at the following Sugar Land locations.

Sugar Land Airport

12888-B Hwy 6 South, Sugar Land, TX
4- DCFC Level 3 Chargers Day 1, with capacity to expand in the future.

Sugar Land Imperial Park

234 Matlage Way, Sugar Land, TX 77478
6- Level 2 EV Chargers Day 1, with capacity to expand in the future.

These sites are expected to deliver DC Super-Fast Level 3 charging to thousands of EV drivers traveling through Sugar Land daily.

As part of OnPoint EV Solutions’ new JV partnership with Argent Associates- Network and Digital Kiosk company from Plano, TX and strategic partnerships with Influent Energy, a leading Solar energy company from Kansas City, and Uptime Charger, a national EV Charging EPC and Management company from Michigan,. OnPoint will initially deploy 4-180kW public direct-current fast-chargers (DCFC) connectors at the Airport to support both public and fleet charging, and 6- 19.5kW Level 2 chargers at the Imperial Park for Sugar Land residents visiting the Park and Community Center.

“Adding EV Charging to Sugar Land gives even more drivers access to convenient charging while visiting the airport or participating in recreational activities at the park. We teamed with a serious group of experts and professionals dedicated and driven to providing the very best, I am happy to be a part of this team” said Ken Durbin, Assistant Director of Aviation- Sugar Land Airport. City of Sugar Land Assistant City Manager- Ms. Beth Rosenbaum stated, “We are excited to provide this service to our citizens, clients, pilots and passengers. We are always looking for ways to expand our service level and expand our reach to those we serve. We are very happy to be a part of this program.”

EV CHARGING NEWS

Rolly Woolsey, co-founder of OnPoint EV Solutions added, “by delivering Fast Speed Wi-Fi connectivity at the Sugar Land locations, OnPoint’s EV Chargers tied to the OnPoint EV App, which can be downloaded from either the Apple or Google Stores, will improve the entire EV Charging Experience.

Using the Digital Kiosk located at each location, EV customers will be able to reserve a charging session and link to local Sugar Land businesses to preorder services and get curbside delivery. OnPoint EV, in collaboration with our Joint Venture partner, Argent Associates, will be testing the new UX Edge™ interactive digital kiosk to further enhance the EV Charging Experience. “The UX Edge kiosks provide engaging entertainment and informative content while vehicles are charging, including directions, nearby points of interest and local Sugar Land Business point-of-sale promotions,” stated Betty Manetta, CEO of Argent Associates.

“The partnership between OnPoint EV Solutions, Uptime Charger, and Argent is another step closer to making the energy transition more achievable. As demand grows, this is an exciting time for EVs, and collaborations like this will ensure success. Uptime Charger is proud to support OnPoint EV’s commitment to lowering the barriers consumers may face with EVs and charging stations,” says Bill Policastro, Founder of Uptime Charger.

OnPoint EV Solutions charging stations, manufactured in the USA by BTC Power, will provide up to 360kW for a single car, with a minimum of 180kW charge when both dispensers are in use. Electric Vehicles will be able to recharge their cars in 20-30 minutes from 20% to 80% capacity depending on their charge acceptance rates. The initial 4 charging dispensers at each site will be deployed with CCSI connectors, with NACS connectors for Tesla vehicles to follow. The charging stations will be covered by a Solar Canopy, with bright LED lighting, security cameras and high-speed managed Wi-Fi. All charging stations will accept credit cards, debit cards, Apple Pay and Google Pay.

Charging Stations will be available 24 hours a day, every day and be competitively priced with a guaranteed uptime.

About OnPoint EV Solutions

Focused on finding forward-thinking solutions within the EV Charging market.

Middleton, ID, OnPoint EV Solutions is an EV charging technology and software company focused on meeting the needs of its clients through designing, building and deploying electric vehicle charging solutions as service programs to various target markets. Co-founded in 2023 by Rolly Woolsey, local Boise State All American and former NFL Player, and several partners, OnPoint EV Solutions was started to address the growing frustrations felt by EV customers that have to drive off the beaten path to find a charging station.

OnPoint EV Solutions partnered with leading regional and national companies, like Influent Energy, Uptime Charger, BTC Power, EV Connect, Argent Associates, Oldcastle PreCast and others to meet the needs of all electric vehicle customers who demand a high level of service, availability and convenience when recharging away from home.

Our app is designed to deliver a frictionless and convenient electric vehicle charging experience to all EV customers. Our seamless integration through our app will allow customers to reserve charging sessions, integrate on-demand charging services, while simultaneously ordering from convenience stores or local establishments where the EV charging station is located.

About Argent Associates

Plano, TX- Argent Associates’ vision and core values center on the development and utilization of an ecosystem of diverse businesses working with major corporations and government agencies to build better communities and economic wealth for all. This vision begins with a willingness to value the talents of others, collaborate, continuously innovate and improve, respect people and the environment and be accountable to each other. As Joint Venture partner with OnPoint EV Solutions, Argent provides the entire managed network from hardware to edge devices, such as Wi-Fi access points, IP Security Cameras and the new UX Digital Kiosk to support the EV Charging deployments at Sugar Land.
